

### Farm Income in Arkansas Takes Drop

Washington, April 13 — (AP)—Texas led its farm income in January and February by 72 percent over the first two months of 1949. It led all states in percentage of drop.

The Lone Star state's cash receipts for farm products for the first two months totaled \$244,000,000, as compared with \$279,000,000 during the same 1949 period, the agriculture department today reported.

The department also reported that 12 other states showed larger percentage drops. Florida farmers' revenues jumped 6 percent, 40 percent, \$85,405,000 to \$91,000,000.

For place in total income, however, Texas went to Iowa, with \$377,076,000 as against \$389,907,000 for the 1949 period. The Hawkeye farm-bundle of cash was roughly \$10 million dollars more than was reported by Texas.

After Texas, came Illinois, California and Minnesota to form the

### Student Council Group to Meet at Magnolia

Magnolia, April 13 — (AP)—The 11th annual convention of the Arkansas Association of Student Councils opened here today.

It will continue through Saturday.

Fayetteville High school, represented by David Leashley, is the president school.

Miss Bobbie Ferguson, Helena high school principal, is state sponsor.

### General Gains Encouraging to Economists

Washington, April 13 — (AP)—General gains in production and buying power, reported to congress for the first quarter of 1950, cheered the economic chart-watchers today.

Yet jobs remained a big question mark. In the view of the President's council of economic advisers, economic expansion has not hit a pace which will keep ahead of creeping unemployment.

The council sent to congress yesterday its monthly report, "economic indicators," covering the first three months of what the council had predicted would be a "good year."

The forecast has been borne out, thus far. National income climbed, after falling throughout 1949. Industrial production surged back after the coal strike, to exceed January's level. Home building set a record.

Per capita personal income, after allowing for taxes, was at a rate which exceeded even the average of booming 1948. It was estimated at \$1,323 for every man, woman and child.

And consumers' prices, for the average city family, were down about 1-2 per cent from a year ago.

The nation's output of all goods and services was measured at an annual rate of \$258,000,000,000 for the quarter. This was below the rate of a year ago but the movement was upward, not down.

The council's acting chairman, Leon Keyserling, told a reporter that the council has no reason to revise its January prediction of a good level of prosperity which can last through the year. He added this long-range qualification:

"We are not getting the expansion in industry and investment that we need to absorb the steady increase in the labor force. That is a serious problem."

### Student Kills Parents and Sister

Huntington, W. Va., April 13 — (AP)—A couple and their 10-year-old daughter were slain with hammer and knife early today and their house set afire.

Police cornered an 18-year-old son in the garage at the rear of the house. They heard moans and two shots. Surgeons performed an emergency brain operation but held little hope for the boy's recovery.

Detective Axel Bryant said William (Billy) Blanks, Jr., a high school student, had murdered his parents and sister, then attempted suicide.

Investigators could find no reason immediately.

Firemen stumbled into the gory setting when they answered an alarm that the house of William A. Blanks was on fire.

They found the bodies and four

The 800 acres leased by the new group include Mink, Stave and Menasha lakes and the old clubhouse.

### Hunting-Fishing Club Leases 800-Acre Swamp

Memphis, Tenn., April 13 — (AP)—The recently organized Menasha Hunting and Fishing club has announced a 10-year lease of 800 underwater acres of the old Menasha Outing club near Turrell, Ark.

The new club is composed of 25 Memphis and Arkansas residents.

### Demonstration by Communists Fizzles

Cherbourg, France, April 13 — (AP)—A Communist protest demonstration fizzled today as French workers began unloading the first American guns sent under the Atlantic defense pact. Strong police and military detachments guarded the docks.

In spite of a furious press and leaflet campaign by the Communists to get Frenchmen to refuse to unload the arms and to demonstrate in protest against their arrival, a feeble attempt early this morning by some 50 demonstrators

### Spring Still a Stubborn Holdout

By The Associated Press

Spring appeared to be a stubborn holdout as major league baseball teams moved from southern training camps into the east and midwest today.

A mid-April cool spell extended from the northern great plains eastward, through the Great Lakes

region and Ohio valley into the middle and north Atlantic states.

Freezing temperatures were reported early today as far south as southern Kansas, southern Missouri, northern Kentucky and Maryland. But it was wintry in parts of the midwest. The mercury dropped 2 degrees below zero at Grand Forks, N. D., and it fell far below freezing in many other parts of the north central states.

Record low readings for the date were set in several cities. Chicago's 21 was the lowest on record for April 21. The U. S. Weather Bureau said some warming appeared in sight by tomorrow.

# DOROTHY DIX Marriage on Shoestring

Dear Miss Dix: Will you settle this argument for us? I say that a man and a woman who are in love should marry even though they are poor and have no money to support a family. The wedding ring, as fighting the battle to success together will make the bonds of affection stronger between them. My friend says that a couple should wait until they can afford to marry. He says that a marriage must have the proper financial backing to make it a success. Which is right?

Answer: There are those whom poverty knits together, closer than any rich husband and wife could ever be because they have suffered together, they have toiled together, they are soldiers who have fought shoulder to shoulder until they have become literally one. The sting is taken out of poverty for them because of their great love.

## Few Are Capable

But there are so few capable of a great love that it makes marriage without adequate financial support a risk that few are justified in taking. Human nature is what it is, and we are not sentimental when we are hungry or cold or seedy looking, or when we are worried about where the rent is to come from. When we are uncomfortable and anxious, we are thinking more of our stomachs than we are of our hearts.

Also, we are the creatures of habit. Our happiness depends upon our having the environment, the food, the association, the amusements, the clothes that we have had all our lives. The habit of comfort is stronger than most love and so when a man and woman have to live in a place that is an affront to their every instinct of taste; when they have to wear cheap clothes; when they have to eat poor food and when they have to depend upon each other for all their society and amusement, they are likely to turn upon each with bitter reproaches.

And so while money is not absolutely necessary to the success of a marriage, it makes it far less of a risk.

Dear Dorothy Dix: Should a wife get up and get her husband's breakfast? My husband works hard and has long hours. Is it my duty to get up and prepare his breakfast? I shall regard your decision in the matter as final.

Answer: If you do, you will be up tomorrow morning and put on a pretty apron, and when your husband comes down to breakfast he will find on the table a smoking hot meal that will send him off to work thanking his lucky stars for having bestowed you upon him as a wife.

To my mind the one and only justification for a woman not getting up and getting her husband his breakfast is sickness, and by sickness I don't mean any piffing ailment, I mean the sort that calls for a doctor and trained nurses.

Furthermore, I do not hesitate to say that any able-bodied woman who lies abed of a morning and let her poor, hard-working husband get up and scramble for himself some sort of a makeshift breakfast is a quitter, and he would be perfectly justified in divorcing her.

How any woman can expect to

make a success of marriage when she reneges on her part of the bargain, I can't imagine. She must know that her husband has contempt for her as a selfish, lazy loafer, and that as he starts to work with something he has poured out of a can and a cup of mean coffee souring on his stomach he is thinking that he got cheated in his matrimonial venture and wishing he could return it to the bargain counter. For what he didn't expect was to have to earn the food and cook it, too.

Dear Miss Dix: Here are the virtues I possess: I am good-looking. A good dresser. A good cook. Play a good game of bridge and of golf. Dance well. Sing well. Sew, make all my own clothes and hats. Read and study all the time. Am a good housekeeper. Have a good disposition. Am a good driver. Am well educated. Am easy to reason with. Have a good disposition. Am my husband's secretary. Do all kinds of fancy work. Am very affectionate, loving and kind. Love children and animals. Love everybody. Want everybody to love me. Write poetry and short stories. Play the piano. Am not conceited. What do you think of those virtues, all of them in one human being?

Answer: I never heard the like of it. Your husband must esteem himself a very fortunate man to have got the one perfect woman in all the world for his wife. Or does he find it a little trying to live up to? I should think that a mere ordinary husband would feel that he didn't show up very well in comparison.

## Prank Backfires All Way Into Municipal Court

Conway, April 13 (AP) — What possibly started as a prank backfired all the way into Municipal court here.

Sheriff Jack Castleberry said he and Deputy C. O. Hensley were at a dinner party at a rural inn Tuesday night when two Arkansas State Teachers college students, posing as officers, tried to search the guests for "weapons."

Castleberry said the two were Dan Sands of El Dorado, Ark., and John D. Wade of Blytheville, Ark. The sheriff and deputy took

them in charge and started to Conway with them.

En route, Castleberry reported, the automobile was forced from the road by a car occupied by two other students. These he identified as Gene Miller of Little Rock and

Ted Cradler of Minneapolis. All four wound up under a \$400 each for appearing in Municipal court next Monday. Deputy Prosecutor Francis J. Avan said he would file charges today.

# Distant Star BY HERMINA BLACK

Copyright 1950 by Hermina Black. Dist. by NEA SERVICE, INC.

THE STORY: Clemency Norton is a nursery governess. She is a young girl who lives with her mother and her two brothers, Piers and Algernon. While exploring the luxuriant garden, Clemency meets Piers and is seen with him by her mother. She is told to go to her quarters. Later Piers tells Clemency that Piers is almost sixteen years old and Clemency realizes she is being told to keep away from the master of the house.

IX AS the door shut behind her employer, Clemency drew a deep breath. Well! So the sting was in the tail! She did not know whether to laugh or be furious.

Surely Mrs. Jon Amberley could not be under the impression that the new nursery governess was trying to attract the owner of Red Aloes. The idea brought a swift, angry color into Clemency's cheeks. The memory of that conversation remained with her for the rest of the day, and she took good care to keep Baba to that side of the house—no even venturing beyond the courtyard, though she was dying to explore the oasis outside.

When she had put Baba to bed, she went back into the day nursery where the table was already laid for her dinner. She did not in the least mind the idea of that solitary meal.

But when, her dinner over, and cleared away, she sat finishing a vest which she was knitting for Baba, it was not Jon but his brother who occupied her thoughts. Of one thing Clemency was quite determined, come what might, no one at Red Aloes should have the chance of thinking that she was one of those young women who so unfortunately did not return Piers Amberley's antipathy.

Finding that she had run short of wool, she rose and went into the other room in search of some. She had put it into one of the dressing-table drawers, and as she pulled the drawer out she saw ce-

going to be ill, is she, Miss Norton?

"Feel sick!" announced Baba. "Poor Baba," sympathized Jon. "Come and sit on Daddy's knee, and he'll read to you."

Which very successfully "did it." If she felt sick, suggested Clemency quietly, bed was the best place.

A now! Baba, scrambling down, ran to her father. Clemency could have asserted her authority, but she thought there was a time and place for everything. The reading did not last many minutes; soon she was romping madly with her father. But at this point Clemency felt that a re-imposing of discipline was really necessary, and announced:

"Time for your afternoon rest now, darling."

"No!" said Baba. "Yes. It's really bad for her to get so excited after lunch, Mr. Amberley."

"No," reiterated Baba with Molotovian determination.

CLEMENCY'S patience was at an end, and picking up her charge she was carrying her, screaming and kicking, into the night nursery, when the door behind her opened, and turning her head she saw that Syrie had entered.

Baba, whose mouth was open to emit another ear-piercing howl, broke off on the first note, and burying her face against Clemency, burst into very real tears of frightened surprise.

"Put her to bed at once," ordered Syrie.

"Want to go to bed," wailed Baba, for whom the situation had drastically changed.

Coming back a few minutes later she was aware of raised voices, and in time to hear Jon say:

"Naturally you would agree with someone who makes the kid miserable." He broke off, flushing as his eyes met the cold surprise of Clemency's.

Syrie's brittle laugh broke the silence. "Are you ill-treating our daughter at my instigation, Miss Norton?"

"Hang it!" exclaimed Jon. "I didn't mean—"

## 10 Facts to remember about NATURAL CHILEAN NITRATE

- Natural.** Chilean Nitrate is the only natural nitrate in the world.
- Nitrate Nitrogen.** The nitrogen is 100 per cent nitrate.
- Sodium.** Chilean Nitrate contains sodium equivalent to about 35% sodium oxide (NaO). This acts like potash (K<sub>2</sub>O) and helps to make the phosphate in the soil more available.
- Yodine.** Chilean Nitrate contains iodine to help meet the needs of plants, animals, and human beings.
- Other Plant Food Elements.** Chilean Nitrate contains small quantities of other elements that contribute to strong, healthy plant growth, such as manganese, potassium, magnesium, boron, calcium, iron, sulphur, copper and zinc.
- Ideal Condition.** Chilean Nitrate comes in free-flowing pellets—easy to handle and to apply in any distributor.
- Quick Acting.** Chilean Nitrate is immediately and completely available.
- Anti-Acid.** Chilean Nitrate helps keep the soil sweet.
- Time-Tested.** Chilean Nitrate has been proved by more than 100 years of research and practical farm experience.
- Doubly Profitable—Economical.** Chilean Nitrate improves the quality of crops as well as the yield. Consistently excellent effect of heavy applications year after year upon crop and soil alike makes it an outstandingly profitable and economical nitrate for every need and purpose.

**"THEY'S ONLY ONE NATCHEL SODA!"**

"I figure Nature know best how to make soda right... so's plants can get all the nitrogen easy-like. And farmers can see crops needs the soda and other minerals natchel soda's got. Chilean is the only natchel soda!"

## 2nd Witness Appears on Probe Scene

Washington, April 13 — (AP) — Another witness described as a former Communist may be called on by Senator McCarthy (R-Wis.) to supplement the senate testimony of Louis Budenz in the Owen Latimore case.

McCarthy's investigators were reported to have talked to the prospective witness, but there was no indication what bearing he might have on the senator's accusation that Latimore is a top Soviet spy in this country. Latimore has vigorously denied the accusation.

Budenz, once a Communist and now a Fordham university professor, is McCarthy's key witness in the case. Budenz is to testify Thursday before a senate foreign relations subcommittee looking into McCarthy's general charges of communism in the state department.

The future created by those charges was heightened yesterday by a clash between Chairman Tydings (D-Md.) of the inquiry group and Senator Lodge (R-Mass.) one of its members.

The dispute erupted when Tydings said he was holding up the appointment of Frederick Ayer, Jr., of Wenham, Mass., as an assistant on the inquiry group's staff. Lodge had suggested Ayer for the job.

Tydings said he acted because Ayer is a candidate for the Republican nomination for attorney general in Massachusetts. "I do not believe that candidates for office, either Democrats or Republicans, should serve as members

### NO POISON GAS

Russellville, April 13 — (AP) — Officers here investigated a report that 'poison gas' had been sprayed along highway 64 near Russellville.

They decided the "gas" was fog from a spray used by fruit growers on peach trees.

Until he turned the tables in the 1950 IC4A indoor meet, Penn State's Jim Gehrides had never licked Michigan State's Horace Smith in the hurdles. It was their fourth meeting.

of our staff," the Maryland senator said.

Lodge shot back that Tydings had had three weeks to look into Ayer's record, adding that the action was a "gross discourtesy and injustice" to Ayer.

The issue of the mystery witness, possibly along with one or two others, may be given to the committee by McCarthy in reply to a demand that he furnish the group by Monday all of the evidence he has to support his Communist charges against the state department.

## Republicans to Fight Plan for Vice Probe

Washington, April 13 — (AP) — Republicans senate leaders have decided to come out fighting against a Democratic move to shift a crime investigation into the hands of a five-man special committee.

The GOP policy committee reached this decision late yesterday at a conference which boomed the investigation into a major political issue.

Senator Taft (R-Ohio) made it clear the Republicans are suspicious of the Democrats' motives in proposing that the crime inquiry be taken from the judiciary committee.

He said the move apparently

was made to keep two Republicans off the committee "who know most about it and are most interested in it." He was referring to Senators Ferguson of Michigan and Donnell of Missouri, both judiciary committee members.

But Democratic Leader Lucas of Illinois retorted "that's just political propaganda." He declared no one was trying to bar anyone from committee membership.

Lucas insisted the special committee was proposed as a sensible means of merging separate investigations by the judiciary and commerce committees.

The COP decision made it certain there will be a fight when a resolution is offered to set up the five-man group.

Some Republicans want the investigation to include the outbreak of violence and vote fraud charges in Kansas City. Senator Kem (R-Mo) called on President Truman yesterday to break up what he termed "an unholy alliance" between politics and crime in Kansas City.

## Coal Industry Hit by Cut in Production

Pittsburgh, April 13 — (AP) — The nation's soft coal industry is suffering the slings of curtailed production today while even greater woes are foreseen in the immediate future.

Industry spokesmen predict spreading unemployment and a chain of mine closings as a result of reduced coal output and the inroads of competitive fuels.

The nation's 8,000 bituminous (soft) coal mines produced a record-breaking 631,000,000 tons in 1947. Now they are reverting to a normal market estimated at around 400,000,000 tons.

Last year 43,000,000 tons was dug despite several strikes. Many high cost or low quality mines already were being squeezed out. And thousands of miners are joining the ranks of job hunter. The National Coal association estimates 5,000 coal miners will be jobless in coming months. Another 50,000 transport workers, who haul coal from mine to market also will be laid off, the NCA predicts, as the result of oil imports alone. Natural gas and fuel oil continue to creep into fields once dominated by coal. Railroads are changing to diesel engines, moving from coal burning locomotives to diesel engines. In West Virginia, where 110,000 miners earn their living in the pits, unemployment is up to an estimated 6,000 among diggers in the state's southern fields.

A particle of sea fog is 1/8,000 as large as a light raindrop.

## VA Hospital Merger Savings Is Questioned

(Editor's note: This is the third of five stories explaining the fight over the Hoover commission's proposal to lump the VA hospital program in with other government hospital programs.)

By JAMES MARLOW

Washington, April 12 (AP)—The federal government is spending about \$1,000,000,000 a year on its various medical programs and hospitals.

That includes the army and navy hospitals in this country, the public health service, and the hospitals and medical care provided for veterans by the veterans administration (VA).

The Hoover commission, headed by former President Hoover, recommended that all the hospitals be placed under the single control of a new agency to be called the united medical administration.

The idea behind this recommendation — since the commission's job was to suggest ways of running the government better and cheaper — was that it would make the government's medical program more efficient and less costly.

There is sharp dispute over both

points: More efficiency, at less cost.

But on the subject of cost both the friends and foes of the recommendation are pretty glib.

The Hoover commission itself didn't attempt to say how much the one-agency-for-all-hospitals would save the government.

On the other hand the American Legion, which says the plan would cost more than the government is spending now, can't say how much more. The Legion, which wants VA to keep all its own hospitals independently, is leading the fight against the plan.

But as for efficiency, the Hoover commission says the plan would:

Improve the general standard of medical treatment, public health, and medical research; standardize the costs of building hospitals; get the most use of federal hospitals by wiping out the present distinctions as to the types of beneficiaries for which each can care now; and let the government make better use of its medical manpower.

But it's right on that point—would the Hoover commission plan better the way hospitals are run separately now — that the dispute begins.

Some of the statements of the plan's friends and foes will be given in a later story. But—

What the veteran wants to know about the plan can be boiled down to three questions. He'll get opposite answers. The thing to remember is that at this point the

whole business is a matter of opinion, and conflicting opinion at that.

Q. Does it make sense to handle veterans, soldiers, sailors, dependents of men in the armed forces, and patients of the public health service all in the same hospital?

A. Friends of the plan: Sure, a patient is a patient no matter where he is. Foes of the plan: No, for admission to such a hospital would depend on the availability of beds not occupied by non-veterans.

Q. Mightn't this all-patients-in-one-hospital plan mean a veteran might find himself crowded out?

A. Foes of the plan: Sure it might, in spite of the fact that the government has a special obligation to the veterans, particularly the one with a service-connected disability. Friends of the plan: No, there'd be plenty of beds to go around, if the hospitals were merged.

Q. Would the plan mean more red tape for the veterans?

A. Friends of the plan: No. He'd still go to VA to get an okay if he wanted to get into a government hospital; VA would still be responsible for getting him in. Foes of the plan: Sure, more red tape. Instead of dealing with the familiar VA lone, the veteran would have to deal with VA and then with the new, independent hospital.

A light raindrop is 125 times as large as a mist particle.

### Housework Easy Without Nagging Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Don's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Don's give happy relief—help the 15 miles of kidney tubes and filter flush out waste. Get Don's Pills today!

# Baseball Perks Up in Schools in Arkansas

By CARL BELL

Little Rock, April 13 —(P)—Baseball's comeback in Arkansas high schools and colleges, where the national pastime has been sadly ignored, is spreading.

Johnnie Burnett, executive secretary of the Arkansas Athletic association, estimates that about 30 high schools in the state will field baseball teams this spring and summer. There were about 70 prep teams last year.

On the collegiate level, the university and all but two of the 11 AIC colleges — Hendrix and Ouachita — are playing the game. Eight of the nine AIC teams are competing for the conference championship. Little Rock Junior college is playing independently.

It's good to see the school turning to the great American game once again — good for the schools and good for pro ball, which looks to organized amateur baseball for talent.

But why the increased interest in baseball in schools?

Well, in some instances the sport was dropped only because of the war and is making a natural return. Other schools, notably the university and the high schools, turned their backs on baseball earlier, possibly because fans became so wrapped up in the big college sport, football.

The end of the war brought stepped up interest in all sports, and schools are expanding their athletic programs in big ways to give more students an opportunity to participate.

Pro baseball is partly responsible. Wondering about future talent, the big leagues are spending more time encouraging and instructing amateurs with their bonuses and baseball clinics.

The AAA has taken two major steps in its encouragement of high school baseball as part of better rounded athletic programs. First it banned spring football, restricting that sport to its regular season and freeing coaches and boys for real spring sports.

Then, just recently, the governing body of high school sports extended the diamond season to Sept. 1. Most school teams had stopped playing when the summer vacation began, although many of the players remained active in American Legion junior competition.

Whatever the reason for the expansion of schoolboy hit, run and throw, Arkansas' prospects of upping the number of its contributions to the big leagues are bright.

# Track, Field Day Planned at Yerger

The annual Hempstead county high school field and track meet will be held at the H. C. Yerger High school, Friday, April 14, beginning at 8:30 a.m. All coaches and participants are requested to be on hand at 8 a.m. It was announced by County Athletic Director, S. H. Douglas.

The talent program will begin promptly at 7:30 p.m. Winners in the county literary and track meet will be eligible to participate in the district literary and track meet which will be held at Peake High school, Arkadelphia, April 28.

# Bums Picked to Again Win Flag

Orangeburg, S. C., April 13 —(P)—This is the Brooklyn era in the National league. Unless the confident Dodgers trip over their own press clippings, they figure to win a second straight pennant.

Perhaps the aging St. Louis Cardinals, with their glib-edged pitching, again can make it close. Maybe Billy Southworth can threaten with his revamped Boston Braves.

More likely the Brooklyn club with its speed, extra base power, run-making ability and tight defense has too much on the ball. Except for erratic pitching, the Dodgers are a well balanced team. They shouldn't lose unless they beat themselves with over-confidence.

The Phillies, a real surprise package last year, probably are at least a year away from serious pennant contention. Pittsburgh should do better if Second Baseman Danny Murtha bounces back. New York, minus some power but stronger in the infield, shapes up as a second division club.

Despite a fine showing in the Grapefruit league, it looks as though the only club Cincinnati can beat out is Chicago. The Cubs' youth movement hasn't had time to jell.

Here's the way it looks from 1. Brooklyn, 2. St. Louis, 3. Boston, 4. Philadelphia, 5. Pittsburgh, 6. New York, 7. Cincinnati, 8.

Atlanta, April 13 —(P)—In this one-time capital city of golf where the game seems to come naturally, the touring professionals today began the \$10,000 North Fulton open.

The usual cast of stars opened the tournament at the 6,782 yard North Fulton Park course. In addition to deciding who the winner will be, the stars will find out if Atlanta still is blasé about professional golf.

Many times the touring troupe has come to Atlanta but seldom has it attracted enough fans to turn a profit for sponsors. Why? Nobody seems to know definitely. Some oldtime golfers and golf fans hereabouts think that native Bobby Jones ruined Atlanta as a paying proposition for golf 20 years ago.

# SPORTS ROUNDUP

By Hugh S. Fullerton, Jr.

New York, April 13 —(P)— First word received on returning from the sometimes-sunny south is that there's a new feud brewing on the rock market. . . . Seems that one of the occupants of that peculiar place where boxing business is transacted forgot to lock his telephone in the desk one night. When he received his bill he found a little item of \$296 for a long distance call. . . . After considerable detective work, he found another sock marketeer had used the unlocked phone for a conversation with a gent in Buenos Aires. . . . Joe Dimaggio has lined up teammate Tommy Henrich and Sportswriter Tom Meany as guest stars for the opening of his new radio show Saturday. . . . Question is whether these two will let Joe get in a word edgewise. . . . When Worcester, Mass., basketball fans threw at estimonial banquet for the Holy Cross team (first invited and first eliminated in the NCAA tournament) one player commented: "We never would have known how the fans felt about us if we had won."

The Real T Split

Don Faurot, Missouri football coach, is preparing a book on the Split-T formation for ball publication. . . . His sister-in-law, Sue, doesn't think much of the idea. . . . Her husband, Fitz Faurot, coaches at Murray (Ky.) State and is one of the few coaches besides Don who really understands the formation. . . . In taking Don to task the other evening Sue remarked: "I hope you're going to make your first million off that book, Don. You'll probably need it to take care of your starving relatives."

One-Minute Sports Page

There's a movement afoot in Texas to name Weldon Hart, former sportswriter and now press secretary to Gov. Allen Shivers to succeed Jimmy Stewart as secretary of the Southwest conference. . . . Stewart recently resigned to become vice president of the Texas State Fair. . . . Speaking of Texas, the Fort Worth folks who visited the Masters Golf tournament insist their Colonial Invitations are even better event. . . . That's not just because it's in Texas either but because they limit the field to 36 top stars and never have found enough really good ones to fill that quota. . . . The Masters, of course, has a nostalgic regard for the old-timers who can't play top flight golf any more. . . . Red Grange, who seldom goes overboard on football players, tabs rookies Charlie Hunsinger and Fred Morrison as real pro stars of the near future.

All Wet

Ted Collins, owner of the football Yanks, claims New York can dispense with rainmakers and let him solve the water shortage. . . . Ted's club, you recall, drew five rainy days in its six-game home schedule last fall. . . . "Just book us for three games a week and the threat will be over," Collins quips. . . . P. S.: If Ted collected the rainmakers' pay, he'd probably do better than his "Bulldog's" did at the gate last season.

Tom Wright of Louisville last season posted the highest batting average in AAA baseball when he led the American Association with .368.

# Legion Opens Season Here Tonight at 8

The Hot Springs bathers will get a "chilly" reception from the weather and possibly in the scoring department when they tangle with the Hope Legionnaires tonight at Fair park starting at 8 o'clock.

As this is the first game of the season here a short ceremony featuring talks by Legion Commander Joe Jones and Mayor Lyle Brown will be held at 7:45.

Tonight's games is the first of two exhibition contests the Legionnaires will play before they swing into regular league competition. Monday night the Hope nine meets the Texarkana Bears here.

The Bathers have one of the strongest teams yearly in the Cotton States loop and were barely cked out last year.

Porker Golf Team Beats Hope 13-5

The Texarkana, Ark. Razor-back's golf team downed Hope 13-5 at the Texarkana Country Club Wednesday afternoon.

Bruce of Hope took three points from Orr 82-91. Moore swept 3 points from LaGrone of Hope 78 to 92. Bruce and LaGrone's best ball against Orr and Moore gave Texarkana 2 and Hope 1.

Teasly of Texarkana won three points from Bruce of Hope 84-96 and Perkins took another 3-pointer from Bagley, 87 to 95. Teasly and Perkins' best ball against Bruce and Bagley was good for two points and gave Hope one.

Philly Fighters Gain Three First Places

Boston, April 13 —(P)— In winning the national AAU boxing team title, Philadelphia's hard-punching battlers gained three of the eight individual championships during the tourney's three-day run at the Boston garden.

Sherman Nelson latched the Philadelphia's drive last night by outpointing Jimmy Karakas of Atlanta, for the 112-pounds title.

The outstanding competitor award went to Wes Echols of Atwater, Calif., who gained a decisive decision over John Hawthorne of Baltimore, in the 160-pound finale.

Most exciting of the eight wind-up bouts was in the 118-pound class, where Mickey Mars of Cleveland, prevailed after danger of suffering an early knockout.

Mrs. shifted his attack from the head to the body during the late stages to flatten the more experienced Charlie Kaufman of Honolulu, in 1-49 of the third and final round. The Hawaiian also was a beaten finalist here in the 1948 tournament.

# Uncertain Bums May Try to Hire Truman

By The Associated Press

You couldn't blame Brooklyn Manager Burt Shotton if he tried to sign up amideixtrous Harry S. Truman for his pitching staff today.

The President reported yesterday that he is primed to throw out the first ball at the American league opener in Washington on Tuesday when the Senators meet the Philadelphia Athletics.

Shotton, whose Dodgers are favored to repeat in the National league this year, currently has the most uncertain mound staff around. Ralph Branca, Don Newcombe, Carl Erskine, Jack Banta and Rex Barney all have some-his other fingers.

thing the matter with them. Newcombe and Erskine visited Dr. George Bennett of Johns Hopkins hospital in Baltimore yesterday. Newcombe was told his arm and back trouble is "purely muscular" following X-ray and examination. Erskine, who only Tuesday hurled a one-hitter against Greensboro, N. C., was told the same thing about his back ailment.

Branca was to see Dr. Bennett today about his definitely sore arm. Banta's worries are about his teeth. Barney was left in Vero Beach, Fla., to work on his control.

Shotton has Joe Hatten, Preacher Roe, Willie Ramsdell and Dan Bankhead on the sound side, of course, but the season's opening is just around the corner, and the skipper would like to know in a hurry just how things will be with his other fingers.
